Overview

Dant Clayton is proud to offer the most complete and innovative line of outdoor and indoor spectator seating in the industry with world class Alum-A-Stand aluminum bleachers, stadiums, and grandstands. From middle schools and high schools, to colleges and universities, to professional sports venues, to amphitheaters and fairgrounds - the acknowledged bleacher manufacturer leader in spectator seating is Dant Clayton.

Our wide range of capabilities include far more than the design and fabrication of individual projects. We offer full service technical support from the initial design stages of planning through all phases of engineering, fabrication, and construction. We've made our mark in the industry by constantly finding new ways to approach facility design issues as well as the seating systems.

Dant Clayton is committed to improving the stadium, arena and bleacher industry. Established in 1979, we have changed the industry to improve the spectator experience for young and old. We have introduced functional improvements such as welded deck systems; aesthetic improvements such as powder coated finishes, closure panel fascia, vertical picket rail fencing, and a masonry veneer panel system; safety improvements such as slip resistant decking; and comfort improvements with one-piece molded chairs and ergonomically-designed compound curve seats. In recent years, we have developed and brought to market indoor seating solutions that save customers money and create aesthetically pleasing useful space underneath, allowing for additional fan experience locations and amenities. Seeking to take our offering to the next level, Dant Clayton acquired an architectural railing company in late 2015, to offer our customers even more options on handrails and guardrails, opening additional markets and new customer sets.

Whatever the project, our solutions address customer needs with the latest product and service features. We lead by listening to our customers' dreams and desires for their venue and respond with unmatched design and value. We work as a team with architects, school boards, and athletic directors to create a seating facility that is customized specifically for our customers. Solving problems, while providing superior performance and innovation, has always been a priority at Dant Clayton - resulting in the highest quality aluminum bleachers, stadiums, stadium seating, arenas and grandstands in the industry. It is this commitment combined with a sincere team approach with the

Dant has three principal standards that guide our performance, whether we are designing, fabricating and supplying major grandstand systems, or developing a new seating product:

We are customer driven. It is imperative that our technical sales staff work very closely with the owner/designer/construction teams early in a project to clearly understand the key issues, priorities, and goals of a given situation.

We are team dedicated. We continue to dedicate ourselves to building the best possible engineering, design, project management and manufacturing teams. This, combined with maintaining the most state-of-the-art manufacturing facilities, helps us produce superior products and performance before, during, and after construction.

We are known for being absolutely reliable. We have the capacity to do what we say we will do. We live up to our commitments and stand behind our performance.

At the heart of Dant Clayton is a strong customer focus that is paired with speed, total participation from all 170+ employees working in our office building and manufacturing plants, and a committed leadership team. When encompassed in an environment of mutual learning and benchmarking it becomes a solid recipe for success.
