Overview

Haddock Education Technologies was established in 2005 as a subsidiary of Haddock Corporation, dedicated to selling Promethean ActivBoards and related education technologies. Today, we offer consultative services for education that include; project management, product orientation and training, curriculum development, continuing education, and on-going support after the sales for more than a half dozen of the industry's best-known manufacturers. Celebrating our 40th year in business in 2018, Haddock Corporation began as a software development company founded by Richard Haddock. Expanding into the education market in 1984, Haddock Computer was of the first Apple Education agents in North America. In 2005, Haddock Education Technologies became a Master Distributor for Promethean. We now cover 11 states representing Promethean, Boxlight-Mimio, EarthWalk, Audio Enhancement, Anywhere Cart, HoverCam, MakerBot, Recordex, Lightspeed, Swivl, Polar3D and Vivitek among others, in the K-12 and upper education segments. The Haddock team works collaboratively with our customers to provide outstanding customer service. Haddock has a team of "outside" education consultants servicing our accounts on a full-time basis with the support of a full-time sales support representative based in our corporate office in Wichita, KS. In addition, Haddock employs a full-time installation team that will oversee installation and warranty issues as they may arise within your district. We have assisted school districts from two-dozen to 40,000-plus students for almost a half-century. Haddock Education Technologies is changing the world, one classroom at a time!
