### Overview

*YellowFolder, LLC provides electronic record management system services to school districts throughout the United States. Its systems and software are custom-designed for use in K-12 schools. The YellowFolder ERMS is the electronic file cabinet for all departments. It is a complete replacement and alternative to paper-based record keeping and file storage. YellowFolder also offers digitization services to pick-up, scan, index, code and upload existing physical records. The YellowFolder ERMS is structured into four separate modules: student, special education, human resource, and administrative records. Together, these record series comprise all the records maintained by a district, allowing YellowFolder to serve as an "umbrella" system for the entire district. The YellowFolder ERMS is custom-built to handle FERPA/HIPAA compliance, automated K-12 file matriculation, automated retention schedules, and automated file uploading/filing using current student and staff information system data. This provides an enormous benefit, allowing the District one liaison for its entire transition to electronic records management.*

## AWARDED CONTRACTS "View EDGAR Doc" on Website

Contract	Comodity	Exp Date	EDGAR
180901	Records and Materials Management Goods and Services	11/30/2021	See EDGAR Certification Doc.
180503	Software	07/31/2021	See EDGAR Certification Doc.
