Overview

Blackboard® Inc. is fully incorporated and has been in business for 22 years. Formed in 1997 with the vision of transforming the Internet into a powerful environment for the educational experience, Blackboard quickly became the leading provider of e-Education systems and services. Blackboard's roots originate with its first teaching and learning software platform, CourseInfo, which was created within the education community. Today, Blackboard is the world's leading education technology company: we are reimagining education by challenging conventional thinking and advancing new learning models. We rapidly deploy relevant and meaningful technologies and services to meet the needs of modern-day learners and the institutions that serve them, driving success and growth for both. In partnership with higher education, K-12, corporate organizations, and government agencies around the world, we help every learner achieve his or her full potential. Over the past decade, Blackboard has grown from less than \$100M in annual revenue to more than \$643M in annual revenue in 2015. During this time, Blackboard has continued to consistently generate positive operating cash flows and has remained profitable as measured and reported to creditors and investors. Blackboard has grown through both acquisition and organic growth. Blackboard is the market leader in ten different product categories in higher education in North America. Globally, Blackboard supports more than 19,000 customers in 100 countries, including 1,900 international institutions. Blackboard estimates 30 million individual users for all Blackboard products and services. Blackboard has approximately 2,750 employees worldwide, and is headquartered in Washington, D.C., with offices in North America, Europe, Asia, and Australia. Based on the Top 50 Times Higher Education Reputation Ranking in 2014, 80 percent of the world's top academic institutions work with us. Our solutions and services are used by one in three U.S. school districts, including 70 of the largest 100 districts, and we serve more than 20 million K-12 students. We support and work with 92 percent of the Nation's top online bachelor degree programs.
