Overview

SG1 is a leading provider of cloud based and managed services that deliver innovative, award-winning strategies to help businesses strengthen and protect their IT infrastructure. SG1 offers a variety of services including: Enterprise Print Management Software – The web-based application eliminates print servers and delivers a single integrated platform that increases functionality and lowers cost. It also reduces headaches and saves valuable time by giving you centralized management over your entire print environment, while empowering end users to install their own printers. Centrally Managed Direct IP Printing: Robotic Process Automation - Robotic Process Automation - Robotic Process Automation enables enterprises to create true virtual workforces that drive business agility and efficiency. A virtual workforce, comprised of software robots that can execute business tasks on enterprise applications, becomes an integral part of an enterprise's greater workforce. It is managed just as any other team in the organization and can interact with people just as other employees would interact with one another. Cloud Services eco-system – We offer an all-in-one, fully supported ecosystem of products and services. Out suite includes disaster recovery, virtual servers, cybersecurity, virtual desktops, managed WiFi, file sharing, firewalls, infrastructure and a 24/7 helpdesk. Cyber Security Block Threats at the Cloud Level Web Security: Full transparency: Proxy Filtering vs. DNS Filtering
