Overview

Air Tutors provides high impact digital tutorial services to support accelerated student learning recovery. We offer flexible scheduling to meet the needs of students and district partners.

Our program is recognized for research alignment to best practices in effective tutoring, such as intentional and sustained mentorships, alignment to district curriculum and classroom experiences, and targeted instruction to individual and small groups based on students' individual needs and diagnostic assessments.

Our tutors are experienced educators who receive additional training in digital pedagogy and evidence based tutoring practices and our interactive learning platform was built with the complexities of diverse learners in mind.

With a deliberate and effective tutor to student pairing process, we provide students with a dedicated professional who has the experience and credentials to meet their instructional needs, including students with Individualized Education Plans and English Learners.
