### Overview

*Medical Illumination International, Inc. is a manufacturer of surgical, exam and procedure lights. Our lights are brilliantly engineered to give you brighter, whiter, cooler and more adjustable lighting with remarkable shadow control and virtually no heat emission. Medical Illumination lights have been recognized and respected for over 40 years by physicians, nurses and other medical personnel for being the highest quality and most cost effective available.*

*Medical Illumination's product offering also includes VidaShield UV24, a fast 24/7, active air purification system that uses UV-C to significantly reduce viruses, bacteria and fungi from the air, before they can be inhaled or settle on surfaces. This innovative, patented device is uniquely designed by combining an ultraviolet germicidal irradiation chamber and air circulating fans behind an overhead ceiling light, providing for up to 24/7 operation in occupied spaces. The efficacy of VidaShield UV24 has been proven in numerous peer-reviewed studies and white papers. No engineering controls are needed to operate VidaShield UV24 - simply wire it up, turn it on and you are on your way to effectively and efficiently treating your air. Conveniently and unobtrusively installed in ceilings, VidaShield UV24 will be a game-changer in your disinfection protocols.*
