Overview

<p>Blue Mantis, Inc. dba GreenPages, Inc. Founded in 1992, GreenPages is a transformational IT consulting and systems integrator dedicated to helping clients make digital business transformation a reality. Our methodologies provide Public Sector and private organizations of all sizes with the ability to architect innovative disruptive solutions so that they can be better consumed by business users. Today's digital business challenges are too demanding and complex for traditional IT providers to solve, and the landscape of products available to customers is confusing and difficult to navigate. A large percentage of enterprise customers understand the need to transform their business processes but cannot afford to struggle with the complexity of technologies necessary to achieve these positive business outcomes. GreenPages offers end-to-end digital technology solutions designed to maximize end user experience, provide quick time-to-value, and most importantly, we deliver the business outcomes promised. We have 30+ years of enterprise and midmarket success and deep experience delivering IT solutions to our State, Local & Education customers of all sizes. We've also won numerous awards on both a national and global level; most recently GreenPages was ranked #24 in the world for Cloud Services and #30 in the world for Managed Services. Clients look to GreenPages as their innovation partner of choice. We are client-focused, strategy-led, and possess the necessary blend of business, technical, and operational skills to help clients transform and modernize their IT operations to successfully compete in the digital cloud era. Our long-standing and strategic relationships with leading technology partners place us in a uniquely advantageous position. Recognized for our deep expertise across multiple technologies, we are often called upon to develop and pilot innovations to leverage cloud, hyper-converged, and myriad advanced technologies in ways that further our clients' business goals and drive value for their organizations. The results are groundbreaking.</p>
