Overview

CoolVu of College Station works with vendors to service the windows and finished surfaces at their facility. We repair old, cracking and weathered surfaces using our surface finishes and other graphics. We remove and replace outdated perforated graphics on buildings, protect facilities using safety film and anti-graffiti films, and we service and remove/replace outdated and underperforming glass and surface solutions.

CERAMIC SOLAR CONTROL WINDOW FILM

Ceramic solar control window film is your next-level solution for managing sunlight and UV damage while enjoying impressive energy savings. CoolVu's proprietary Ceramic Transitional window films adapt to the sun's intensity and darken when exposed to direct sunlight providing for perfect sun control when needed most. Maintain views, lower air conditioning costs, and improve interior comfort with the installation of CoolVu's full line of ceramic solar control window films.

GLASS FILM FOR PRIVACY

CoolVu offers an extensive array of frosted privacy film and architectural glass finish options for businesses of every type. CoolVu's designer or customizable privacy film products are available with economical finishes to renovate and enhance conference rooms, glass walls, and office partitions.

PERFORATED WINDOW GRAPHICS

CoolVu's perforated vinyl window graphics transform buildings and retail windows into valuable advertising space while providing one-way privacy, sunshade, and still allowing filtered sun light to come through the glass. For long or short-term installation, perforated vinyl can be tailored to your brand with custom high-resolution graphics and easily removed without damage.

CUSTOM PRINTS

There are a variety of options for refreshing your surfaces and fixtures with minimal downtime and waste. Enhance walls and windows with printed graphics, murals, and custom wallpaper. Protect and re-finish stone, wood, and surfaces of all kinds with specialty films, ceramic coatings, and architectural finishes. Hundreds of design options are readily available, or have any digital image converted onto a printable film to be applied on walls or glass surfaces, enhancing your store or office space.

SAFETY & SECURITY
WINDOW FILMS

Protect your business and your investments with safety and security window film. Security window films fortify door and window glass to provide resistance against intrusions and forced entries, protecting your weakest points of entry. While security films make it much more difficult for vandals to break into your store, it also protects you and your inventory from the harm caused by flying shattered glass during a severe weather event.

ANTI-GRAFFITI FILMS

Protect against graffiti tagging, scratching, aging, corrosion, and discoloration with CoolVu’s anti-graffiti glass films. The semi-permanent anti-graffiti film, which is nearly invisible after installation, is not only a deterrent against vandalism, but it also decreases, if not eliminates, the need for costly glass replacement. Over time, retail stores can easily save tens of thousands of dollars more on a single-window replacement by installing these sacrificial anti-graffiti window protective film coatings.
