Overview

*<p>Square Panda incorporates the science of literacy in a multisensory and multimodal app-based platform. The game-based platform begins with the alphabetic principle and explicit, systematic phonics instruction. It directly applies students’s new learning within the connected text of our decodable SquareTales digital and print books, providing opportunities for practice guided by immediate feedback and coaching. Within SquareTales, students learn and practice over 70% of the 100 most common Dolch and Fry sight words taught in PK - First Grade. Simply put, Square Panda is where the science of reading and fun combine to accelerate learning foundational reading skills and move students into independent reading success faster!
