Overview

Sequel Data Systems is located just north of Austin Texas, where we dream big, work hard, and give our hearts to everything we do. Established in 1986 as a Digital Equipment Corporation VAR, we have grown to become one of the largest enterprise-focused Value-Added Reseller and IT Consulting firms in Texas.

We also have a professional services team that delivers the intangible project benefits of customer service, communication, and great relationships with most hardware and software vendors. This means you'll experience a high level of support from us while also leveraging great relationships with software and hardware vendors to get the attention your project needs.
