Overview

Company Profile Hi-Line has been keeping America's industry running strong for over half a century. Headquartered in Dallas, Texas, we provide timely access to over 30,000 quality industrial MRO products through our nationwide network of mobile industrial hardware stores. We bring both the store and the service to you. Our wide array of products is complemented by our unparalleled inventory management services. Each store is managed by a highly trained Territory Manager, who serves as your personal, on-site product and inventory management expert. Our Territory Managers make sure you have the parts you need, when you need them. We're there to keep your business moving, 24/7/365. *Our History* Hi-Line was founded in 1959 by J.P. Sheaffer when he recognized a genuine need in the market place—businesses were hurting for inventory management and timely, direct delivery of quality electrical and mechanical maintenance products. His solution? Take the store and the service to the customer. J.P.'s dream took shape as he started operations out of his Dallas home. In the beginning, J.P. enlisted the help of his sons each night as they stocked and loaded his old Pontiac station wagon with product. The following morning, he would personally service his customers in the Dallas/Ft. Worth area, managing their inventories of aftermarket products. "We learned early that it was our knowledge and expertise that customers valued most and which set us apart. Not only did we find the right part for the job, we managed their inventory for them, keeping it organized and stocked so they could focus on production."—J.P. Sheaffer, Founder and Chairman *Hi-Line Today* Hi-Line has grown from those humble beginnings into a nationwide distributor of industrial MRO supplies. Today, Hi-Line's Territory Managers drive fully stocked mobile stores with direct access to over 30,000 parts. Our Territory Managers are highly trained and equipped to serve the needs of the transportation, aviation, facilities maintenance, aerospace, medical, military, marine, power generation, manufacturing and heavy equipment industries. Hi-Line's growth and service reputation are founded on three core values: 1. Quality Products 2. Quality Service 3. Competitive Pricing "Every successful company is made up of core beliefs. These beliefs are the foundation that helps the company grow and prosper. Here at Hi-Line, our beliefs revolve around hiring great people, providing quality products, giving outstanding service and offering competitive pricing."—Mike Sheaffer, President *Our Mission Statement:* Hi-Line, a financially sound and responsible company, will continue as a progressive, growth-oriented distributor of quality electrical and mechanical maintenance products. We will remain committed to providing the highest level of professional and friendly service to our customers. Hi-Line is
