Overview

Beable Education, Inc. is an educational software company. The Beable Life-Ready Literacy System addresses one of K-12 education's most intractable challenges: closing the literacy and opportunity gap for all students, regardless of their starting points. In contrast to existing one-dimensional solutions, Beable is the first multi-dimensional system that integrates literacy acceleration, intervention response, English language acquisition, core content mastery, and ACT/SAT test preparation. Beable further connects literacy with career development and essential skills development – and by doing so makes literacy real and relevant while also helping students become career- and life-ready. Beable does so seamlessly and automatically across all environments – face-to-face, remote and hybrid – to ensure uninterrupted learning in all circumstances. This makes Beable an ideal solution to help students recover from learning loss and re-start literacy and academic growth at this critical time.
