Overview

UNX is a family owned and operated company, founded in 1958 to pioneer new surfactant technology for the laundry industry. Research innovations originally designed for the laundering process have gained widespread application in the formulation of kitchen and housekeeping detergents and cleaners. Our mission is to provide the most innovative cleaning solutions while serving with integrity and excellence.

UNX encourages and welcomes new approaches to all phases of its business. Long field experience and technical know-how enable our Research Laboratory to formulate new and innovative products in order to arrive at custom solutions to meet the needs of our customers. UNX represents stability, independence, integrity, and security.

UNX Territory Managers are experienced professionals who involve themselves in all aspects of a customer's operation. Complete customer satisfaction is their goal. It is the quality of our products and level of service—the two components of value—that sets UNX apart and brings added value to each facility we serve.
