Overview

For over 30 years, the VCS Companies have grown and expanded right along with Victoria to encompass Victoria Communications, VCS Security Systems, I.C.T., and Rocket Oilfield Services. Together, these companies provide Victoria and the surrounding communities everything from AT&T wireless phones and accessories, twoway radio systems, intercom systems, phone systems, security systems, and fire alarms, to fiber optics, private wireless networks, and oilfield pipeline construction. That means the Hartman Family provides a wide range of products and services to both commercial and private customers. Each valued customer is treated with the philosophy that it's more important to give, than to receive. This philosophy is also shared by their knowledgeable and professional staff who greet each customer as they would a friend.
