### Overview

ForeFront Power is a leading North American renewable energy advisor and developer of solar and energy storage solutions for commercial, industrial, public sector, and community solar customers. The ForeFront Power team has 15 years of experience working together to develop more than 1,300 behind-the-meter and community solar and storage projects, totaling more than 1 gigawatt-DC of renewable electricity. Headquartered in San Francisco, with offices in New York City and Mexico City, the company offers business, government, education, and community solar customers in the U.S. and Mexico a broad array of development, advisory and asset management services. ForeFront Power is a wholly owned subsidiary of Mitsui & Co. Ltd., a global energy infrastructure and investment leader with a robust balance sheet and an "A" credit rating from Standard & Poor's. For more information, visit [forefrontpower.com](http://forefrontpower.com). ForeFront Power is a total energy solutions provider. We support customers with renewable energy or sustainability consulting, education on markets and solution types, current energy and emissions baselining, goal-setting and plan development, implementation, feasibility analysis and conceptualization, contract negotiations, sustainability reporting, Renewable Energy or Project RFP Development and Management, project delivery, and asset management services.
