Overview

Ident-A-Kid's School Visitor and Student management system is an-award-winning, state-of-the-art system that will track all visitor, volunteer, staff and student activity at your school and district. Our software is easy-to-use and will scan all visitors against the National Sexual Offender Registry as well as your custom banned/custody issue (NoGo) list, to secure your campus from visitors who do not need access to your students and faculty. Many schools have been able to significantly reduce administrative resources due to the time savings in accounting for tardy and early dismissal students as well as staff and volunteer hour tracking.
